2010 Annual Report

Iowa Disaster Aid Individual Assistance

During the 2007 Session, the Iowa General Assembly passed two bills creating a reimbursement based grant assistance program to assist Iowans during times of disaster. Senate File 305 created the Iowa Individual Assistance Grant Program (IIAGP) on a short-term emergency basis while House File 896 established the program as a permanent part of the Code of Iowa. The program was further amended during the 2008 Session to increase the eligibility limits and the maximum award amount.

This legislation created a disaster aid individual assistance fund for the use of the executive council. Grants may be provided to qualifying individuals and families following a Governor's Disaster Proclamation. The fund may be used to make financial grants not to exceed \$1 million in a fiscal year. The Iowa Department of Human Services administers the fund. Grants are provided to individuals or families as reimbursement for expenditures incurred related to the disaster event. Reimbursement grants are capped at \$5,000.00 per household. Specifics on the program can be found in the Iowa Administrative Code, Section 441, Chapter 58.

To be eligible for assistance, an individual must have a self-declared annual income that is less than 200 percent of the federal poverty guideline. The income eligibility limit for a single person is presently \$21,660. For families, the household income must be less than 200 percent of the federal poverty level based on the number of members in the household. For a family of four the income figure is \$44,100.

In FY 2010, Governor Culver signed five Disaster Emergency Proclamations that activated IIAGP. Eleven grant assistance applications qualified for assistance during FY 2010. For the remainder of calendar year 2010 the IIAGP was activated three additional times with 145 applications qualifying for assistance. The average reimbursement grant provided for all eight events was \$1,471.08. A total of \$714,178.80 of state-only dollars was provided in grant assistance to Iowans during these events.

For the four instances where the Program processed applications, you will find details on these efforts below. The information will provide detail on:

- The type of incident and date of declaration
- Fiscal year of the incident
- Impacted counties
- Number of approved applicants
- Total grant dollars expended
